Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

FINAL REJECTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1,2,4-10,15-17 and 20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lucas (US 5,687,876).

Referring to claim 1,5,8-10. Lucas discloses a dispenser (Figure 1) wherein the dispenser comprises a container (see Figure 1) for holding at least one movable filter (4), a lever (20) connected to the container, an extension (50 and 54) connected to the lever (20) and extending into the container (Figure 6), a tip of the extension (48) having a friction surface (58) for engaging the at least one filter sheet (4) within the container (Figure 7) whereby lifting the lever (20) moves the tip of the extension (48) in the container and slides the at least one movable filter sheet (4) outward from the container (Figure 7).

Lucas does not specifically disclose the dispenser sheet as being strips.

It would have been obvious to one of ordinary skill in the art at the time the invention was made to have modified the teachings of Lucas to include the article to be dispensed by the dispenser to be strips because it would allow a greater functionality for the dispenser.

Regarding claim 2,6. Lucas discloses an article dispenser (Figure 1) wherein the lever (20) is the cover and is pivoted on a hinge (34) connected to the container (Figure 1).

Regarding claim 4,15-17 and 20. Lucas discloses an article dispenser (Figure 1) wherein the friction surface (58) is on a side of the extension (50) opposite from the top of the lever (top outside of member 20) and not another side of the extension (50).

Regarding claim 7. Lucas discloses an article dispenser (Figure 1) wherein the extension has a relative slippery surface on a side opposite the friction surface (49).

Allowable Subject Matter

Claim 3 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments with respect to claims 4-10 and 17 have been considered but are moot in view of the new ground(s) of rejection. See modified rejections above.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
